**Evidence collection with DNA-Free\* consumables**

**Cardboard box system**

**Collection kit Prionics forensix**

for evidence collection of mucous membrane

with the following content:

- 1 Cardboard box
- 2 Cotton swabs (EO-treated) **STERILEEO**
- 3 Seals
- 1 Pair of disposable gloves

Art. No.	Description	Unit
47889	Collection kit	1 kit

**Evidence collection kit Prionics forensix**

with the following content:

- 5 Cardboard boxes
- 5 x 2 Cotton swabs (EO-treated) **STERILEEO**
- 15 Seals
- 5 Water in ampoules sterile, 0.4ml

Art. No.	Description	Unit
47257	Evidence collection kit	1 kit

**Evidence collection kit Prionics forensix (End-EO-treated)**

with the following content:

- 5 Cardboard boxes
- 5 Cotton swabs
- 15 Seals
- 5 Water in ampoules sterile, 0.4ml **STERILEEO**

Art. No.	Description	Unit
52072	Evidence collection kit Prionics forensix (end-EO-treated)	1 kit
	for a quantity of 200 kits	1 kit

52263

**Tube system**

**Evidence collection tube Prionics forensix with self-drying system, safe dry cotton swab with wooden stick.**

Art. No.	Description	Unit
47258	Comparative sample	150mm 1 unit
47389	Evidence	100mm 1 unit
47259	Evidence	150mm 1 unit
52263	Fingernail dirt, with tapered cotton swab	150mm 1 unit

**Graduated price for large quantities on request.**

**Evidence collection tubes DNA-Free\* with self-drying system**

guarantee a very fast drying and are recommended by the task force "DNA-Analyse" of the German federation and federal states. The **active drying** ensures a very short drying period (4 hours). The growth of bacteria and fungi is prevented to protect the precious DNA. The evidence/ DNA is lasting long even without cooling as well as in **humid surroundings**.

Concerning this you'll find a paper with the title „The forensiX Evidence Collection Tube and Its Impact on DNA Preservation and Recovery“ published in the journal BioMed Research International, <http://www.hindawi.com/journals/bmri/2013/105797/>.

**Evidence collection kit**

with the following content:

- 5 Evidence collection tubes „Spuren“ (evidence), 100mm
- 5 Spuwa® Ampoule sterile water, 2ml
- 5 Security seal red, 30mm (D)
- 5 Glassine bag, 70 x 200mm, with write-on label

Art. No.	Description	Unit
55109	Evidence collection kit	1 kit

**Spuwa®, sterile Forensic water, bi-distilled**

ampoules, for pre-moistening when collecting dry samples

Art. No.	Description	Unit
50257	Sterile water, Spuwa® bi-distilled, forensic water, 2ml	10 ampoules 1 package
	for a quantity of	10 packages 1 package
	for a quantity of	100 packages 1 package

## Securing of evidence after sexual assault

The professional collection of DNA samples after a sexual assault is for immediate or later charges essential.

In order to ensure this, sexual assault care kits have been developed. All kits contain evidence collection tubes, preservation bags, a medical documentation (in German) and a guideline for securing of evidence in a legally-compliant way.

### Sexual assault care kit „Hessen Kit“

has been developed together with LKA Hesse and the advice centre „Women’s Emergency Hotline“ Frankfurt and is recommended by the Society of Gynaecology and Maternity

The kit has the following content: evidence collection tubes Prionics, preservation containers, documentation and examination sheets „Hessen“.

Art. No.	Description	Unit
47261	Sexual assault care kit „Hessen Kit“	1 kit

47261

7

### Sexual assault care kit „Infants/Adolescents“

This kit is a more detailed version of the „Hessen-Kit“.

The kit has the following content: evidence collection tubes Prionics, L-shape ruler, surgical mask, scissors, sterile water and the following DNA-free items: preservation bags, comb, gloves.

Art. No.	Description	Unit
54437	Sexual assault care kit „Infants/Adolescents“	1 kit

### Sexual assault care kit „Berlin“

This kit is set up in accordance with the requirements of Charité.

It is divided in the respective investigation stages, structured like the documentation.

The kit has the following content: evidence collection tubes Prionics, preservation containers, comb, L-shape ruler, sterile water and sterile gloves.

Art. No.	Description	Unit
53422	Sexual assault care kit „Berlin“	1 kit

We will be pleased to support you with the compilation of individual sexual assault care kits.

**Further DNA-Free\* consumables**

**Force-Forex™ adhesive stamp**  
for securing DNA samples (samples of skin)

STERILE EO

Art. No.	Description	Unit
50260	Force-Forex adhesive stamp	5 units 1 package

**Mini tapes**

are used to collect DNA samples from various surfaces.  
DNA-free according to ISO 18385, individually packed in plastic tube.

STERILE EO

Art. No.	Description	Unit
54620	Mini tapes	50 units 1 package

**Evidence collection tube Sarstedt Forensic**  
with ventilation membrane

STERILE EO

Art. No.	Description	Unit
49637	Evidence collection tube with plastic stick individually packed	102mm 1 unit
50735	Evidence collection tube with wooden stick individually packed	102mm 1 unit
51627	Evidence collection tube with pointed swab tip wooden stick, individually packed	102mm 1 unit
49043	Evidence collection tube XL (plastic stick) only available in quantities of 50, 100, 150, ...	150mm 1 unit

**Evidence collection tube, sterile**  
plastic tube approx. 150 x 12mm, plastic plugs.

STERILE R

Art. No.	Description	Unit
47907	Evidence collection tube, sterile, with plastic stick	100 units 1 package
47908	Evidence collection tube, sterile, with wooden stick	100 units 1 package

Scaled prices on request.

**Cotton swabs**

STERILE EO

Art. No.	Description	Unit
47536	Cotton swabs, wooden stick, 5 x 150mm (DxL), individually packed	100 units 1 package
	for a quantity of	25 units 1 package
47442	Cotton swabs, wooden stick, 5 x 150mm (DxL), packed in pairs	100 kit 1 package
	for a quantity of	15 kits 1 package

Art. No.	Description	Unit
47910	Cotton swabs, wooden stick 5 x 150mm (DxL), one-sided cotton tip	100 units 1 package
47909	Cotton swabs, plastic stick, 4.5 x 77mm (DxL), double-sided cotton tip	200 units 1 package

**Safety bag Debabreathe® in welded subpackaging**

breathable, very strong, tearproof film, tamper-resistant seal and reclosure, labelling field from size S onwards, 5mm weld seams, with safety printing on the sides - for samples with residual moisture and dry ones.

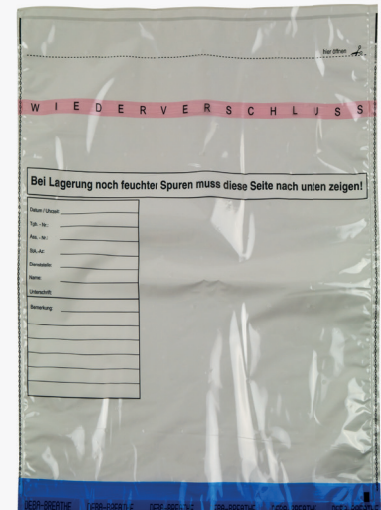

**Please note that the indicated dimensions are external dimensions!**

The usable size is less because of the sealing edges of about 15mm in width and 40mm in height.

STERILE EO

Art. No.	Description	Unit	
47570	85 x 120mm XXS	50 units	1 package
47571	110 x 180mm XS	50 units	1 package
47572	195 x 320mm S	50 units	1 package
47573	335 x 420mm M	25 units	1 package
47574	495 x 520mm L	25 units	1 package
47575	635 x 800mm XL	25 units	1 package

DEBATIN

Only at Voigtländer:

To ensure **STERILE EO** we deliver in welded subpackaging.

**Reaction tube with spheric tamper-proof closure**

STERILE EO

Art. No.	Description	Unit	
49329	Reaction tube, 1.6ml, graduated, individually packed, EO-treated, spheric tamper-proof closure	250 units	1 package
